

safelight
faster than speed of light

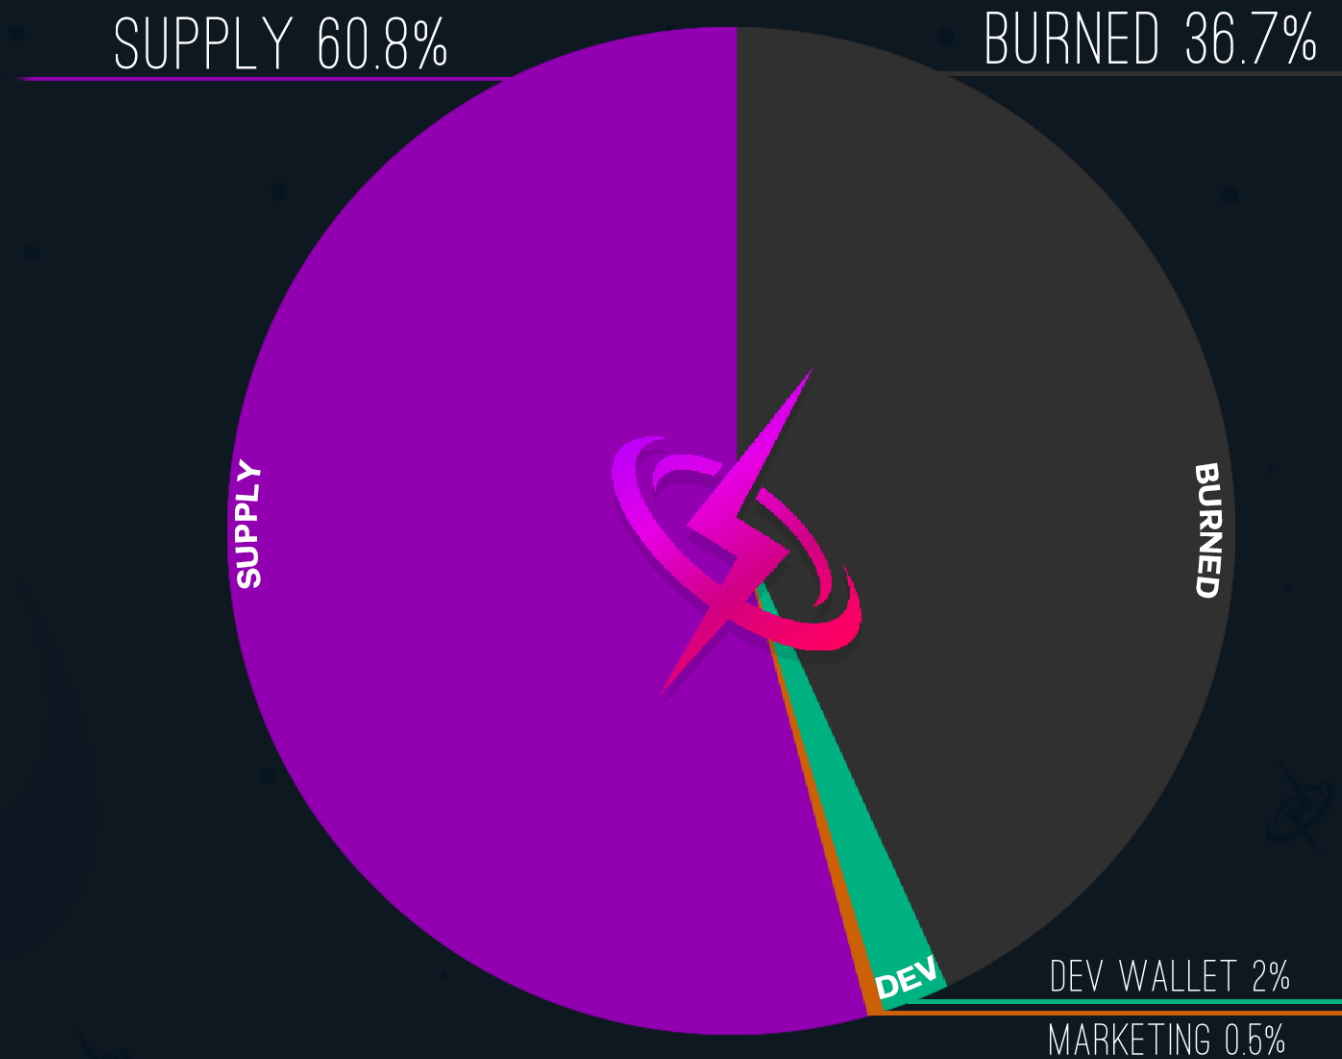

Distribution

Symbol: \$SafeLight

Total Supply: 1,000,000,000,000,000

Supply: 608,000,000,000,000

Burned: 367,000,000,000,000

Liquidity Lock

To ensure that our investors are **Safe**, we have a liquidity lock of **2 years**. We will also continue locking our liquidity **forever** as the project grows.

SafeLight liquidity has been **locked** by **DXLock**

<https://dxsale.app/app/pages/dxlockview?id=628&add=0&type=lpdefi&chain=BSC>

Roadmap

SafeLight was launched **6 april 2021**. The numbers on the roadmap represent the **quarter** of 2021. With the **help** of our community we could always work way **faster** than expected!

Concept of Design

We created **\$SafeLight** to provide our holders with leading tokenomics within the **DeFi** space. Our frictionless yield & liquidity generation protocol makes you earn **passive** income without having to do anything at all.

We charge a **10%** transaction fee which is **split** in **two** ways. **5%** goes into a **locked** liquidity pool and **5%** is shared amongst our **stakeholders**.

We will also be providing token holders a **governance** feature that will enable our holders to have control of the platform and a lock up feature that will reward lock ups with access to **Ultra rare** NFT's in a set.

NFT ownership transfers will incur and distribute royalty fees by smart contract

Work with SafeLight

We are always looking for talent!
